

LED G4 12V

Product Description:

QCOM unveils LED wedge and G4 base lamps as a perfect halogen replacement in low-voltage lighting fixtures.

Compact in size, but delivering big energy savings, the lamps are equivalent to the miniature 10-watt halogen lamps commonly used in landscape, accent, under-cabinet, pendant and other decorative lighting fixtures. Consuming just 1.2 watts of power, QCOM's LED wedge and G4 lamps work with 12-volt electronic and magnetic transformers to deliver energy savings by replacement of conventional lamps.

Feature:

1. Input Power: 1.2W
2. Input Voltage: 12VAC/DC
3. CRI: 80
4. 15,000 hour life
5. Non-Dimmable
6. Wedge & JC Bi-Pin
7. Power factor: 0.5
8. Saves more than 70 percent on energy
9. Two-Year Limited Warranty

Application:

1. Decorative lighting
2. Under cabinet lighting
3. Landscape lighting
4. Suitable for dry locations only
5. Not for use in totally enclosed luminaires

Specification:

1. CCT 2700K
2. Lumen Output: 120lm
3. Base: G4
4. Height 40mm
5. Dimmable
