

Stainless Steel Housing Waterproof Luminaire

Cover PC

S/S 304 Body

Anti-Corrosive

Model: QML-38

Advantages

- Body: S/S304 Stainless Steel
- Diffuser: PC
- High-low impact, high humidity environmental tests
- As a special tri-proof engineering lighting luminaire, LB12-G2 is resistant to acid, alkali and corrosion to be used in chemical places due to the material it is used by cold rolling the 304 stainless steel for the housing.
- The luminaire is sealed by stainless steel clips, and together with sealed strip and stainless steel waterproof cable gland, the IP could meet 67.
- The luminaire can be used in many extreme environments, due to the using of top brand driver (ambient temperature: -20°C~40°C)

SUS Tri-proof

Voltage (V)	Watt (W)	Lumen (lm)	CCT (K)	PF	Lifetime (hrs)	Size (mm)
220-240	18	2160	3000K/4000K/6500K	>0.9	30,000	680x142x70
220-240	9	1200	3000K/4000K/6500K	>0.9	30,000	680x142x70

Dimensional diagram

Model	W2 (mm)	H2 (mm)	L1 (mm)	L2 (mm)	W3 (mm)
QML-38	142	70	680	430	104
