

LED Wall Light

Product Description:

QCOM's Wall light series are cost competitive linear solution with good performance and multiple lumen output for retail and industry applications. Its multiple optic designs accommodate different applications as well, high system efficacy with better energy saving makes it an ideal LED replacement products of conventional T8 fluorescent products.

Feature:

1. Replacement of conventional T8 fluorescent fitting with input AC 220-240V and 240VDC as option.
2. Aluminum body, poly carbonate cover.
3. Long lifetime up to 30,000 h
4. Uniform illumination, Isolated LED driver
5. Easy maintenance

Specifications:

Model	CW-10W	CW-10W-ACDC	CW-20W	CW-20W-ACDC
Tube Body Material	Alu + PC			
Nominal Wattage (W)	10W	10W	20W	20W
Lumens Delivered (lm)	1400lm	1400lm	2800lm	2800lm
Efficacy (lm/W)	140lm/W			
CRI	80Ra			
Color Temperature (K)	2700K/3000K/4000K/6500K			
L70 Lifetime (Hrs)	30,000hrs			
Input Voltage	220-240VAC	220-240VAC/DC	220-240VAC	220-240VAC/DC
Beam Angle	120°			
Power Factor	0.9			
Operating Temperature	-20 - 40 ° C			
Warm-up time (60%)	<0.5s			
Electrical Grade	Class II			
SDCM	<6			
Mounting	Wall Mount			
Type of protection	IP20			

Dimension:
